Nanni Industries SAS & NPS Diesel (Nanni Importer)
French Pavillon - Stand 01.718

- **Boot & Fun Berlin - Germany** from november 27th to 30th
Nanni Trading Germany **Hall 3.2 Stand 22 B**

The « Varkalas »: an ancient boat brought up to date.

Motocraft, Nanni's exclusive importer in Greece, and Patmos Marine shipyard have worked hand in hand together to equip the boat "Varkalas" with the N4.38 engine.

That Greek boat, once a sailboat, has been used since the early 1920's for fishing and freight transport but its qualities, especially a steady hull, have made it a very appreciated boat. Consequently, Patmos Marine has wanted to bring the Varkalas up to date whilst maintaining traditional building techniques and improving equipment. Nanni has been chosen thanks to the evident advantages of the N4.38 engine: minimal dimensions and weight. Motocraft has also realized a specific work on the wet exhaust system to reduce the noise by 40 %.

A great project equipped by Nanni!

Flashback on October's boat shows...
